Our Health**

What is the NDIS?

The NDIS can provide our mob who have a disability with information, connect them to services in the community, and give them details about what support is provided under the National Disability Insurance Scheme (NDIS).

The National Disability Insurance Scheme supports our mob who have a permanent or significant disability that affects their ability to take part in everyday activities and live an ordinary life.

The type of support provided includes;

- Support to achieve greater independence
- Support to being more involved in your community
- Support in gaining employment
- Support with improved well-being
- Support to children with a permanent or significant disability. (Children aged 0-6 years and children over 7 years have different NDIS support “pathways”

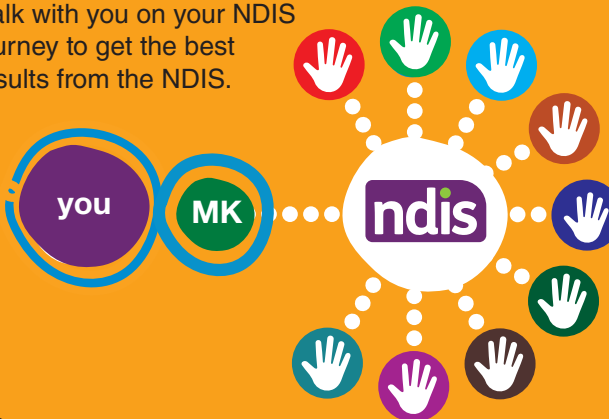

“Walking with you to get the best results from the NDIS.”

How can the MK Community Connector Program help me?

- By providing guidance and advice around what the NDIS is.
- Delivering information sessions and yarning circles to our mob so you can better understand: What the NDIS is; What the NDIS pathway process is; and How to access the NDIS
- Supporting you around identifying the types of support you may need in your NDIS Plan that best supports your disability
- Assisting with the completion of NDIS Access Request Forms (ARF)
- Attending planning meetings with you
- Providing clarity and understanding around any concerns or questions you may have around the NDIS

The MK Community Connector Program is there to help you better understand what the NDIS is and how it works.

Our goal is to support our mob and walk with you on your NDIS journey to get the best results from the NDIS.

The Moorditj Koort Community Connector Program aims to engage, inform, support our mob through the NDIS pathway process:
